

The screenshot shows a terminal window titled "mca@localhost:~". The terminal has a menu bar with "File", "Edit", "View", "Search", "Terminal", and "Help". The shell prompt is "#!/bin/bash". The script content is as follows:

```
a=10
if [[ $a -eq 10 ]]
then
    echo "the number is found"
fi
```

The cursor is at the end of the first empty line after the script. The status bar at the bottom shows "found.sh" 6L, 72C, "3,16", and "All".
